ABOUT ME

I am a skilled Front-End Developer with 4+ years of experience in creating intuitive and visually appealing user interfaces. I excel at developing seamless and user-friendly UI/UX experiences in React and implementing responsive designs.

WORK EXPERIENCE

March 2019- Present
Company Name | AppBlaze Solutions

Front-End Developer

- Creating visually appealing and intuitive user interfaces.
- Optimizing website performance for faster load times and improved user experience.
- Conducting thorough testing and debugging of front-end code to identify and fix issues.
- Collaborating with back-end developers to integrate front-end components with server-side logic.
- Implementing SEO best practices to enhance the discoverability of web pages by search engines.

October 2020 - Present
Company Name | Mlinzi

UI/UX Designer

- Create site maps, user flows and wireframes to structure and organize content effectively
- Design interactive prototypes and mockups to illustrate user interactions and workflows.
- Ensure designs are responsive and accessible across various devices and screen sizes.
